## RAM Optical StarLite 150

**Sale Price**  
**\$15,995.00**

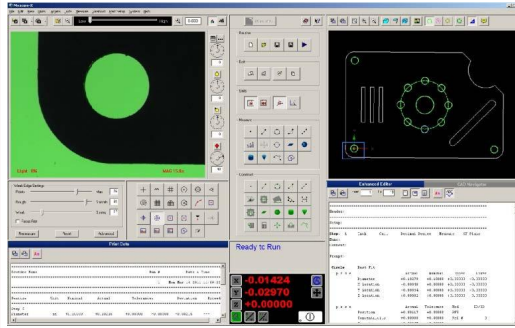

*Immediate Delivery!*  
*(Machine New is \$17,500)*

FOB—Winston Salem, NC

This system is very easy to use and has a 150mm x 75mm stage and simple manual controls. With programmable lighting and MeasureX software, this system can be very productive. The system can measure in all three axis. You can take high quality images of your parts as well.

Crotts and Saunders Proudly Presents this Demonstration Special. This is one of the most flexible vision systems in the market. You can see this system in action at our Technical Center in Winston-Salem.
